General Meeting–Oct. 18, at 1:30 pm at our Library , 1701 Menlo Ave (at California St.), Napa

Genealogical members, Janice Brown, Sandy Hoover and Ruth Jenkins, have formed a panel and will share their experiences utilizing DNA testing in their genealogical research. Our September speaker, Dr. Colleen Fitzpatrick, very capably walked us through the basics of DNA and DNA testing. We learned the details of the laboratory techniques, how they are performed, and what kinship interpretations may be made from the results. We are now better prepared to hear about the actual research experiences of Janice, Sandy and Ruth and to decide how DNA research might fit into our own studies. The afternoon program is at **1:30 pm at our Library** , 1701 Menlo Ave , Napa. Thursday, October 18. The public is cordially invited to attend.

Immigration Research Ideas

Remember that the U.S. Federal Census for years 1900, 1910, 1920, 1930 ask each foreign-born person's year of immigration to the United States. Newspaper obituaries might also mention the immigrant's year of arrival.

Canadian Border Immigration records of persons crossing the U.S.-Canadian border were created and collected by the Immigration and Naturalization Service (INS) and its predecessors, the Bureau of Immigration and Naturalization (1906-33) and the Superintendent of Immigration (1891-1906). NARA has many films of the border crossings. An article in the NGS Newsmagazine for July-Sept, 2007 issue includes a helpful article by Claire Prechtel-Klusgens on these records and where to find them at the National Archives. The article includes descriptions of the various films. Finding a record of a relative's Canadian border crossing is becoming easier as more records become available. Check the website <http://www.archives.gov/research/order/deronline.html> or-

Website to check out!!

Hudson Bay Company <http://www.gov.mb.ca/chc/archives/hbca/>

A huge collection of information for anyone whose ancestors worked for the company from 1600s to the early 1900s including biographical sheets.

A SPECIAL PROGRAM IN NOVEMBER

Are you flattened by the stacks of material you have collected over the years? Help is on the way.

By popular demand, our February speaker, Cath Trindle, returns to offer additional assistance in **Organizing Digital and Hardcopy Material**.

Cath's presentation was so helpful that many members begged for more. Cath's November program offers that help in a mid-day seminar, 10:00AM to 2:30PM, **at the Genealogical Library**. There will be ample time for computer demonstrations and consultation with Cath. Attendees may try hands-on methods of record organization. Bring your laptop computer. Bring your lunch and enjoy sharing experiences.

The November *Afternoon* Program at the Genealogical Library

Date: Thursday, November 15, 2007

Time: 10:AM to 2:30 PM

Place: The Genealogical Library, 1701 Menlo, Avenue, Napa

The public is cordially invited to attend.

Your Help is Needed!

Our Society and Library is staffed by a very dedicated group of volunteers. These volunteers serve on the Board of Directors, provide staff to keep the Library open, and work on special projects. Several of our volunteers who serve on the Board of Directors have advised that they will not be able to serve in 2008 due to personal reasons. The positions that will be open in 2008 are the Wine Press Newsletter Editor, and the Ways and Means Chairperson. The Wine Press Newsletter Editor is responsible for compiling the information for the newsletter and putting it into a form that can be published. The Ways and Means Chairperson is responsible for fund raising, which consists of the Wine Collection Drawing. Both of these positions are included in the Board of Directors which meets on the second Monday of the month at 12 noon. If you are interested in serving as a volunteer in one of these positions, please contact the President, Dick Bruechert, at 224-7133 or at kbruechert@aol.com.

How to Use DNA for Family History.

was the topic of the fascinating and amusing presentation by Colleen Fitzgerald, PhD, at the September meeting of the society. Stating that the subject of DNA is not a difficult one she illustrated her speech with a series of interpretive slides. Fitzgerald clarified for her audience the differences between mitochondrial and nuclear DNA. The mother passes mitochondrial DNA to all of her children but only her daughters pass it on to the next generation. Nuclear DNA containing the male Y chromosome passes exclusively through the male line. It is this Y DNA that is used in genealogy studies, and therefore, only males are eligible as subjects.

Study of the number and types of mutations in DNA specimens gives estimates of the date of common ancestors. These short repeats of mutations become markers which can be identified and presented in tables. Persons having identical or almost similar patterns are closely related. DNA testing, using swabs of cells from the mouth, is available from a number of companies, and the results can be sent to a number of data bases of world wide family studies.

Often the search cannot be complete without reference to the history of movements and migrations of the family groups and the geography of their origins. Fitzpatrick predicts increasing matches among different surnames until we are “one big happy family”.

She invited persons to contact via her web site at www.forensicgenealogy.info

Following the meeting Ms. Fitzgerald signed copies of her books, *Forensic Genealogy* and *DNA & Genealogy*.

The October meeting (to be held in the afternoon at our library) will have additional information about DNA when members Sandy Hoover, Ruth Jenkins and Janice Brown share their experiences in using DNA in genealogical research.

There are *amazing people* offering amazing assistance to their fellow genealogist.
Check these sites and consider volunteering your assistance.

Random Acts of Genealogical Kindness

RAOGK is a global volunteer organization. With over 4000 volunteers in every U.S. state and many international locations, we have helped thousands of researchers. Our volunteers take time to do everything from looking up courthouse records to taking pictures of tombstones.

The volunteers of Random Acts of Genealogical Kindness (RAOGK) have agreed to donate their time for free, you MUST PAY the volunteer for his/her expenses in fulfilling your request (copies, printing fees, postage, film or video tape, parking fees, etc.). All they ask in return is reimbursement for their expenses (never their time) and a thank you.

(from the website at The Random Acts of Genealogical Kindness (RAOGK)
<http://www.raogk.com>

Books We Own

Books We Own is a list of resources owned/accessed by individuals who are willing to look up genealogical information and e-mail or snail mail it to others who request it. This is a free service - volunteers may ask for reimbursement of copies and postage if information is provided via snail-mail. The project began in 1996 as a way for members of the ROOTS-L mailing list to share their resources with one another. Today, there are over 1500 volunteers.

Resource owners are volunteers with a limited amount of time and resources to spend looking up information. Before using this service, please review [helpful tips](#) for making requests.

(from the website at Books We Own at
<http://www.rootsweb.com/~bwo/>

You could be one of those Amazing People—

YOUR EXPERTISE IS REQUESTED AND DESIRED!

If you would be willing to help a member in your particular area of interest, please let us know.

- ◆ Are you good at deciphering old handwriting?
- ◆ Did you thoroughly research Colusa County, California or Lancaster Co., Pennsylvania?
- ◆ Did you explore an internet archive site that would help someone else?
- ◆ Do you do a surname or family newsletter?
- ◆ Are you quite familiar with a research facility?
- ◆ Can you translate a German document?
- ◆ Have you explored and used many features of a genealogy software program?

Someone in our membership could use your help. Please give us a call or e-mail us (see front page) and we will get a list going in our newsletter so everyone may benefit from our knowledge base.

Smashing Brick Walls

Send in your letters or e-mails for our column. You never know who might have an answer for you.

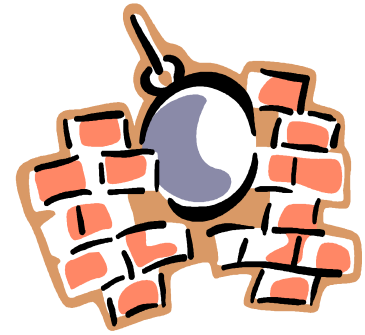

Letters can go to the address on the front page, care of Janice Brown or in my box at our Library OR, better yet, e-mail me directly at jan-coxbrown@comcast.net.

If you can help someone out with their brick wall questions, please reply directly to their e-mail address.

I have a brick wall I can't get over.

Reuben Densmore married Polly Goodale 13 Mar 1800 in Boylston, Worcester, Massachusetts. Polly was the daughter of Paul Goodale and Eunice Lovell. Reuben Densmore died in his 50th year. 25 Feb 1821 in West Boylston, Massachusetts. (I found the vital records of both events from Massachusetts)

I am hunting for Reuben's parents and where he was born.

Joan Barber (jwsilver@aol.com)

A MOTHER FOUND

I found my mother this summer in the Barton County Historical Society, Great Bend, Kansas! I visited the society because I knew that my mother had lived in Great Bend for two years where she attended sixth and seventh grades from 1921 to 1923. A panorama picture displayed on the wall and labeled "Great Bend High School, 1920s" caught my eye. I thought they would at least be contemporaries of my mother and it would be fun to see the clothing and hair styles. Much to my surprise, there was my mother, staring at me from the middle of the picture. Closer inspection revealed that some of the students were holding up a banner which said Great Bend Junior High School. In my mother's memoirs she said that the seventh grade was in a junior high with different teachers for each subject. That dated the picture as the school year 1922-23.

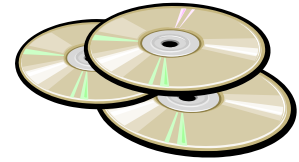

We spent five weeks this summer traveling 8,000 miles in fourteen states and a major focus of the trip was visiting nine of the ten places my mother lived before she was fourteen and her parents moved to the west coast. McAllen Texas was too far away for this trip. Because they lived such a short time in any one place, my grandparents did not leave very much in the way of a paper trail but in every town I was able to verify some part of my mother's memories. In 1976 when she was 66, my mother and father took a trip through the mid-west, visiting all the places of her childhood and then she wrote a memoir entitled "Ramblings of a Flickertail". It was fitting that I take the same trip at the same age. I was able to find schools, churches, and libraries (or pictures of the ones that had been razed) that she described as well as some of the houses she lived in. By far the best find was the picture in Great Bend.

Mary Herzog

[Thank you, Mary, for the article. This is what I love about genealogy—"Psychic Roots" (as Hank Jones would say) calling to us.

Editor, Janice Brown

Funeral Home Records of W.F. Mercier Permelee of St. Helena, Napa County , pages are copies of the original sheets c1920's. Indexed	219 pages	\$27.00

HOW ARE SOCIAL SECURITY NUMBERS CODED?

This comes from Sandra Hoover!

The Groups of digits in Social Security Numbers are assigned to geographical locations. Their assignment structure was similar to the way that zip codes were later assigned (in particular, groups of the first three digits increase from east to west across the continental USA as do the ZIP codes). The group of first three digits is called the Area Number. These area numbers were assigned according to state (or territorial) boundaries. There were some exceptions such as the series 700-729 was assigned to railroad workers regardless of location (this series of area numbers was discontinued in 1964 and is no longer used for new SSN's). Area numbers assigned prior to 1972 are generally an indication of the SSA office which originally issued the SSN. Since 1972 the area number in SSN's corresponds to the residential address given by the applicant on the initial application for the SSN. As the population grew in many areas the original range of number assignments was eventually used up and those original area number assignments have been augmented as required. Area numbers of "000" have never been used and all the original assignments were less than 585 (The only exception is for the 700-729 railroad worker series).

Thank you for you ongoing support. We appreciate our members.

EDUCATIONALLY SPEAKING ,

The Huntington Library in San Marino, Ca provides free online access to baptism, marriage and burial records for each of the 21 missions at their web site, <http://www.huntington.org/Information/ECPmain.htm> Information can be found on more than 101,000 baptisms, 27,000 marriages and 71,000 burials performed between 1769 and 1850 at the missions, the Los Angeles Plaza Church and the Santa Barbara Presidio. (Thanks to Paula Hinkel of SCG Soc.)

Bureau of Land Management records of pre-1908 Ohio land transactions are now available at <http://www.WorldVitalRecords.com> These land records document the transfer of land ownership from the federal government to individuals including patentees, assignees, warrantees, and widows or heirs of transfer. Also included are the legal land description and the issue date of the title transfer. Other states are included in these free searches. Information includes a Google map of the area under the ancestor's name.

Instant zip code lookup is available at <http://zip4.usps.com/zip4> By entering an address, you can learn the correct nine-digit zipcode and the correct standardized address for your mailing. You can also search for all zip codes for a city, find all cities in a given zip code, and search for the zip code of a company.

Happy Ancestor hunting,
Laura McCoy
